Colombo.

Dear Sir/Madam,

Application for the post of Quality Assurance Internship

I am writing to express my interest in the QA Intern position at Dutton Labs LK as advertised on LinkedIn. As a computer science undergraduate pursuing a Higher National Diploma in my second year at SLIIT City Uni, I have gained practical experience in programming and testing.

I have gained a basic understanding of quality assurance through projects in my degree program. In addition, I performed comprehensive testing using both tools and manual methods where I have developed analytical and problem-solving skills, crucial for identifying and rectifying software defects. These experiences provided me with a good basis for software development and quality assurance. I believe that my technical skills and academic background make me a suitable candidate for this internship.

I am impressed by Dutton Labs LK's innovation and quality, and I am eager to contribute and grow in your dynamic environment. Thank you for considering my application; I look forward to discussing it further. I am available for an interview at your convenience.

Thank You.

Yours Sincerely,

Mayashi Isurika Suwandarathna
